

84-Inch 2160p LED UHD Television

This 84-inch LED UHD TV features a 2160p resolution. It is designed for home entertainment, providing sharp details and vibrant colors for an immersive viewing experience.

Product Overview

Cinematic 84-Inch UHD Experience

This 84-inch LED UHDTV delivers a sharp, clear picture with 2160p resolution, making it an ideal centerpiece for any home theater or large viewing space. Featuring an ultra-slim design as thin as 1.5 inches, it offers a sophisticated aesthetic that mounts easily like a picture frame. With integrated advanced motion technology and energy-efficient LED backlighting, this display combines high-performance visuals with practical, modern features.
