Product Overview

High-Performance 84V Charging Solution

This rapid charger is engineered specifically for 84V lithium-ion battery systems, focusing on minimizing downtime for professional tools. It features a robust design with integrated ventilation to ensure safe and efficient operation. With clear LED indicators for charging status and safety, this unit provides reliable battery management for demanding work environments.

Technical Specifications

Input Voltage Range	220~240V / 90~120V
Output Voltage	84 V
Cable Length	1.8 m

Performance Metrics

Rapid Charge Time

70 mins

Charging Time

Features

Safety and Design

- Integrated ventilation
- Overcharge protection
- Optimized charging circuitry

Status Indicators

Power On, Charging, Defective Battery, Fuel Charge
