

850W Electric Impact Drill

This 850W impact drill is a versatile tool suitable for a variety of drilling tasks. Its robust motor delivers high torque and speed, making it ideal for drilling into wood, metal, and concrete.

Product Overview

High-Performance Impact Drill

This 850W impact drill is engineered for versatility and power, making it an essential tool for drilling into concrete, steel, and wood. Featuring a robust copper motor and a durable metal chuck, it ensures reliable performance for demanding tasks. The inclusion of variable speed control and an adjustable auxiliary handle provides the precision and control required by professional users.

Technical Specifications

Rated Voltage	230V / 50Hz
Input Power	850 W
No Load Speed	0-3000/min

Drilling Capacity

Drilling Diameter Capacity

Material	Max Diameter
Concrete	13mm
Steel	10mm
Wood	25mm

Build & Features

Key Features	Copper Motor, Metal Chuck, Variable Speed, Impact Function
Power Cord	2m with VDE plug

Included Accessories

Included Components

- 1pc Plastic depth ruler
- 1pc Side handle
- 1pc Key
