

850W Electric Impact Drill

This electric impact drill features an 850W motor for high performance and efficiency. Its impact function is suitable for drilling into hard materials such as concrete and brick.

Overview

Professional Impact Drill

This 850W Electric Impact Drill is designed for high-performance drilling and fastening across a wide range of materials, including concrete and brick. It features variable speed control for precision work and a robust 13mm chuck for secure bit retention. Engineered for durability and comfort, this tool is an ideal solution for demanding professional applications.

Technical Specifications

Input Power

850 W
Power

Voltage Compatibility	110-120V, 220-240V
Frequency	50/60Hz

Performance

No-Load Speed	3000 rpm
Chuck Capacity	13 mm

Features

Key Features

- Impact function for masonry
- Variable speed control
- Ergonomic grip design
