

8K AI-Enhanced Set-Top Box

This 8K AI smart set-top box provides stunning visuals with 8K UHD resolution. AI technology enhances upscaling and image processing, while a powerful processor ensures smooth streaming and navigation.

Overview

Next-Generation 8K Entertainment

Experience unparalleled visual clarity with this 8K AI-enhanced set-top box, designed to deliver four times the detail of standard 4K devices. Powered by advanced artificial intelligence, this unit offers intelligent upscaling, robust HDR support, and sophisticated image processing for a lifelike viewing experience. Its high-performance processor ensures fluid navigation and seamless streaming, making it a powerful hub for modern home entertainment systems.

Technical Specifications

Maximum Resolution	8K UHD
AI Capabilities	AI Upscaling, Advanced Image Processing
HDR Support	Yes
