

8L Portable Hand Pump Pressure Washer

This 8L portable power washer offers a versatile cleaning solution for various applications. Its hand-pumped pressure system ensures convenience and portability without needing external power sources.

Overview

Portable Cleaning Solution

This 8L portable hand pump pressure washer offers a versatile and eco-friendly cleaning solution for professional and personal use. Designed for maximum mobility, it operates without the need for electricity or a direct hose connection, making it ideal for car washing, window cleaning, and garden maintenance. The unit features a manual hand-pump mechanism for pressure generation and includes specialized attachments for scrubbing and rinsing.
