

8mm SMT Tape Feeder

This 8mm tape feeder is designed for use in automated surface mount technology (SMT) assembly lines. It accurately and reliably feeds 8mm wide component tapes to the pick and place machine.

Product Overview

High-Precision SMT Tape Feeder

This 8mm R4.1 tape feeder is engineered for automated surface mount technology assembly lines, ensuring reliable and precise component delivery. Designed for high-speed pick and place operations, it facilitates accurate component placement onto printed circuit boards. Its robust construction supports consistent performance in demanding manufacturing environments.

Technical Specifications

Feeder Type	ITF2 8mm R4.1
Part Number	PA2654/08

Compatibility

Compatible Series	FCM, FCM2, AX3, AX5, ACM, AQ-1, D-9, GEM-Xi
-------------------	---

Available Options

Available Feeder Configuration Range

Feeder Type	Part Numbers
Twin Tape Feeder (8mm)	PA2657/00, PA2657/05
ITF2 8mm	PA2654/00, 05, 06, 08
ITF2 12mm	PA2654/10, 15, 16, 18
ITF2 16mm	PA2654/20, 25, 26, 28
ITF2 24mm	PA2654/30, 35, 36, 38
ITF2 32mm	PA2654/40, 45, 46, 48
ITF2 44mm	PA2654/50, 55, 56, 58
ITF2 56mm	PA2654/60, 65, 66, 68
