Product Overview

Industrial Lifting Solution

This high-tenacity polyester flat web sling is engineered for heavy-duty industrial lifting applications. Manufactured using advanced weaving technology, it features a robust 7:1 safety factor to ensure secure and reliable load handling. The design incorporates durable, reinforced eyes and high-quality materials to meet rigorous international standards for safety and efficiency.

Technical Specifications

Working Load Limit

8 T

Load Capacity

Dimensions

Parameter	Value
Width	240mm
Length	4M

Material	100% high tenacity polyester
