

# 8T650 Mud Pump Liner

The 8T650 mud pump liner is designed for reciprocating mud pumps, ensuring reliable performance in harsh environments. Constructed from high-quality materials, it provides a smooth internal surface for efficient fluid flow and reduced friction.

## Product Overview

### High-Performance Mud Pump Liner

This mud pump liner is a high-durability component engineered for reciprocating mud pumps in demanding drilling and industrial applications. Built to withstand extreme pressures and abrasive fluid environments, it ensures reliable flow and minimizes friction within the pump system. Precision manufacturing promotes an optimal seal, effectively reducing maintenance downtime and extending the overall operational life of the equipment.

## Compatibility

### Compatible Pump Series

- BOMCO/EMSCO: F-500, F-800, F-1000, F-1300, F-1600, FB-1300, FB-1600, D-375, D-700
- LANSHI: 3NB-1300C, 3NB-1000, 3NB-1000C, 3NB-800
