Overview

KUBOTA GENERATOR

Engineered for durability and efficiency, providing consistent power output for various applications.

Professional Power Solutions

This diesel generator series offers a reliable power range from 9 kVA to 34 kVA, making it an ideal choice for both residential backup and light commercial applications. Engineered for durability and high performance, the units feature advanced vibration isolation, integrated wiring, and robust industrial mufflers to ensure quiet and stable operation. Designed for versatility, these generators are available in various configurations to meet specific power requirements.

Technical Specifications

HONOR AND APPROVAL

Robust construction designed for reliable power generation in diverse environments.

Power Output Range

9 kVA

Minimum Prime Power

34 kVA

Maximum Prime Power

Key Features

- Vibration isolators between engine, alternator, and base
- Integrated wiring design
- Industrial muffler included
- Top lifting and steel base frame with forklift holes
- Fuel tank drainage system
- Complete protection functions and safety labels

Minimum Runtime

8 hours

Radiator Rating

40 °C

Compliance & Options

Available Options

- Auto transfer switch (ATS)
- Paralleling switchgear
- Battery charger
- Water jacket preheater
- Oil heater
- Double air cleaner

Emission Standards

EU II, EU IIIA
