Product Overview

Professional 9-Inch Manual Caulking Gun

This 9-inch manual caulking gun is engineered for the precise application of sealants and adhesives in construction, maintenance, and renovation projects. Featuring a robust steel frame and a smooth trigger mechanism, it ensures consistent material flow while minimizing user fatigue during extended use. The design includes a rotating barrel for versatile application angles and a built-in ladder hook for convenient storage, making it a reliable tool for professional tradespeople and DIY enthusiasts alike.

Technical Specifications

Barrel Size	9 inch
Cartridge Compatibility	1/10 gallon standard cartridges
Construction Materials	Steel Frame, Steel Rod

Key Features

Usability Features

- Rotating barrel for multi-angle application
- Smooth trigger mechanism
- Built-in ladder hook
- Ergonomic design to reduce hand fatigue

Suitable Applications

Construction • Renovation • Maintenance • DIY Projects
