Product Overview

High-Performance Hex Key Set

This 9-piece hex key set is engineered from high-quality Chrome Vanadium (CR-V) steel, delivering exceptional strength and durability for professional applications. Each tool undergoes a specialized vacuum heat treatment process, resulting in a hardness rating of HRCe54-56 and performance levels 6.5 times higher than standard heat treatment methods. Designed for reliability and wear resistance, this set is an essential tool for demanding tasks requiring hexagonal fasteners.

Technical Specifications

Material	CR-V (Chrome Vanadium) Steel
Hardness	54 HRC
Set Size	9 pieces
Heat Treatment	Vacuum Heat Treatment
