

90-Degree Copper Press Fitting for HVAC&R

This 90-degree copper press fitting is designed for HVAC&R applications. It provides a secure and leak-proof connection for copper pipes using a press-fit system.

Product Overview

Professional HVAC&R Press Solution

These 90-degree copper press fittings are engineered specifically for HVAC&R applications, providing a reliable and efficient solution for piping systems. Featuring an M-profile design, these fittings facilitate a permanent, leak-proof connection that is quick and easy to install. Suitable for both commercial and domestic installations, they offer exceptional durability and corrosion resistance to ensure long-term performance.

Technical Specifications

Installation

Press-fit • Permanent Joint

Fitting Type	90-Degree Elbow
Profile	M Profile
Application Areas	HVAC, Refrigeration, Commercial, Domestic
Material	High-Quality Copper
