

90 Degree Liquid-Tight Conduit Connector

This 90-degree connector joins flexible metallic conduit (FMC) or liquid-tight flexible metallic conduit (LFMC) to electrical boxes and enclosures. Its sealing ring ensures a liquid-tight seal, preventing moisture ingress in demanding applications.

Product Overview

Reliable Liquid-Tight Connectivity

This 90-degree liquid-tight connector is engineered to provide a secure and durable connection between flexible metallic or type B non-metallic liquid-tight conduit and steel outlet boxes or metal enclosures. Designed for both indoor and outdoor use, it features a robust construction that ensures long-term performance in demanding environments. The integrated sealing ring effectively prevents moisture ingress, making it an ideal solution for applications requiring reliable, watertight protection.

Technical Specifications

Mounting Compatibility

- Steel Outlet Boxes
- Metal Enclosures
- Hubs

Environmental Suitability

Indoor • Outdoor • Wet Environments • Corrosive Environments

Key Protection Features

- Watertight Seal
- Corrosion Resistance
- Moisture Ingress Prevention

Connector Angle	90 Degree
Compatible Conduit Types	Flexible Metallic Conduit (FMC), Type B Non-Metallic Liquid-Tight Conduit
