

90-Degree Quick Release Corner Clamp

This 90-degree corner clamp is designed for woodworking, metalworking, and frame assembly. It features quick-release mechanisms for efficient workpiece clamping and release.

Product Overview

Professional Corner Clamping Solution

This 90-degree quick release corner clamp is engineered for precision in woodworking, metalworking, and frame assembly tasks. It features an intuitive quick-release mechanism that enables fast workpiece adjustment, significantly improving productivity during assembly. Built for durability, it provides reliable clamping pressure to ensure secure and accurate corner joints across a variety of project material thicknesses.

Key Features

Primary Advantages

- 90-degree corner alignment
- Quick-release mechanism for rapid adjustment
- Adjustable clamping pressure
- Heavy-duty durable construction
- Versatile for metal and wood fabrication

Application Details

Ideal Applications

Woodworking, Metalworking, Frame Assembly, Professional Craftsmanship, DIY Projects
