

## 90 HP 2WD Four-Wheel Tractor

This 90 HP tractor is designed for a variety of agricultural tasks. It features a two-wheel drive system for efficient power transfer and maneuverability.

### Overview

#### High-Performance 90 HP 2WD Tractor

This 90 HP 2WD tractor is a versatile and robust agricultural machine engineered for reliable performance across various farming tasks. Featuring a powerful 4-cylinder direct-injection engine and a durable dual-stage clutch system, it provides efficient power transfer for plowing, tilling, and towing. With its adjustable wheel track and hydraulic steering, this tractor offers excellent maneuverability and control in diverse field conditions, making it a dependable choice for small to medium-sized agricultural operations.

### Engine Specifications

#### Rated Power

**90 HP**

Rated Power

**66.2 kW**

Rated Power

Engine Model	4MC-T79A
Engine Type	4-cylinder, 4-stroke, water-cooled, direct-injection
Rated Speed	2300 rpm
Total Displacement	5.13

### Drive System

Drive Type	2WD
Clutch	Dual Stage
Gearbox Configuration	4*(2+1)*2 Sleeve gear shift
Differential Lock	Sliding pin, foot operated

### Dimensions and Weight

Overall Dimensions (L*W*H)	4396*2038*2810 mm
Construction Mass	3620 kg
Min. Turning Radius	4 m

### Working Device

Lifting Capacity	14900 N
PTO Rotating Speed	540/1000 or 720/1000 rpm
