

900mm Stainless Steel and Glass Range Hood with Quartz Lamps

This range hood features stainless steel and tempered glass construction. It is equipped with quartz lamps, electronic switch controls, filter screens, and a 150mm exhaust outlet.

Product Overview

Professional Grade Ventilation

This 900mm wide range hood is engineered for high-performance kitchen environments, featuring a durable combination of 304/430 stainless steel and tempered glass. It integrates four 20W quartz lamps for exceptional cooktop visibility and uses a powerful 190W motor to achieve an air exhaust volume of 700m³/h. Designed for efficiency and ease of use, the unit includes electronic controls and dual filter screens to maintain a clean and safe culinary atmosphere.

Technical Specifications

Air Exhaust Volume

700 m³/h

Airflow

Motor Power	190 W
Lighting System	4 x 20W Quartz Lamps
Control Interface	Electronic Switch

Dimensions and Weight

Dimensions (W x D)	900mm x 600mm
Height Range	600mm - 1100mm
Gross Weight	35 kg
Chimney Dimensions	285mm (W) x 270mm (D)

Materials and Construction

Materials	Stainless Steel 304, Stainless Steel 430, Tempered Glass
Filter Screens	2

Installation Requirements

Exhaust Outlet Diameter	150 mm
