

900mm Stainless Steel Range Hood with Quartz Lamps

This kitchen range hood is constructed from stainless steel 304# / 430#. It features four 20W quartz lamps for illumination and is operated by an electronic switch. The air extraction rate reaches 700m³/h.

Product Overview

Professional Stainless Steel Range Hood

This 900mm stainless steel range hood is designed to provide efficient ventilation and superior illumination in professional kitchen environments. Constructed from high-quality stainless steel 304/430, it combines durability with a sleek aesthetic. Equipped with a powerful 190W motor delivering a 700m³/h extraction rate and integrated quartz lighting, it offers a reliable solution for high-performance air management.
