Product Overview

Reliable HVAC Switching Solution

This 90A AC definite purpose contactor is engineered for demanding HVAC&R applications, providing reliable electrical circuit switching in air conditioning systems. Designed for heavy-duty use, it ensures long-term performance and durability in critical environmental conditions. The unit operates efficiently at 24V coil voltage and supports both 50Hz and 60Hz frequencies.

Technical Specifications

Rated Current

90 A
Current

Coil Voltage	24 V
Operating Frequency	50/60Hz
Certifications	UL, cULus Listed

Ordering & Support

Payment Terms

- 30% deposit
- Balance against B/L copy

Service Policies

Policy Type	Details
Samples	Available (shipping paid by customer)
Customization	OEM and ODM available
Quality Assurance	100% self-inspection and testing before packing
After-sales	Replacement for quality issues

Standard Lead Time

15-20 days after deposit
