

90cm Kitchen Extraction Hood with Aluminum Grease Filters

This 90cm extraction hood features a 3-speed pushbutton switch for easy operation. It is equipped with washable aluminum grease filters and is available in exhaust or recirculation mode.

Product Overview

Efficient Kitchen Ventilation

The AH1490 Extraction Hood is designed for efficient kitchen ventilation, featuring a sleek and modern aesthetic that integrates seamlessly into any kitchen environment. Equipped with multiple fan speeds and a built-in lighting system, it effectively manages smoke and odors while ensuring optimal visibility over the cooking surface. With flexible installation options for both ducted and recirculating modes, this hood provides a reliable and quiet solution for maintaining air quality.
