Overview

High-Efficiency Cooling Solution

This 90L 300W evaporative air cooler is engineered for versatile use in both industrial settings and large rooms. Utilizing advanced evaporative cooling technology, it effectively lowers ambient temperatures while maintaining energy efficiency. The unit is designed for durability and ease of use, featuring a large water tank for extended operation and a mobile design for flexible placement.

Technical Specifications

Water Tank Capacity	90 L
Power Consumption	300 W
Cooling Technology	Evaporative Cooling

Features

Key Features

- Adjustable fan speeds
- Directional airflow louvers
- Water level indicator
- Drainage plug for maintenance
- Caster wheels for mobility

Performance

Performance Highlights

90 L

Tank Capacity

300 W

Power Usage

Usage

Suitable Environments

Industrial, Large Rooms, Dry Climates
