

92x92x25mm Axial Fan for Electronic Cooling

This 92x92x25mm axial fan is designed to cool electronic components. It features a square frame with mounting holes for easy installation in computers, power supplies, and other electronic devices to dissipate heat and maintain optimal operating temperatures.

Product Overview

High-Performance Axial Cooling Fan

This 92x92x25mm axial fan is engineered for efficient heat dissipation in electronic cooling applications. Designed for versatility, it features a durable plastic frame and is available with either ball or sleeve bearing configurations to suit specific operational needs. With a wide voltage range and reliable lifespan, it provides consistent airflow for critical cooling tasks in computers, power supplies, and industrial equipment.

Physical Dimensions

| | |
|------------------|-----------------|
| Frame Dimensions | 92 x 92 x 25 mm |
| Blade Material | Plastic |

Performance Metrics

| | |
|---------------|-------------------|
| Rated Voltage | 100-240V |
| Rated Power | 13 W |
| Turn Speed | 2450 - 3000 RPM |
| Wind Quantity | 14.30 - 16.96 CFM |
| Noise Level | 31.0 - 35.2 dB-A |

Operational Specs

| | |
|---------------------|------------------------------|
| Bearing Options | Ball Bearing, Sleeve Bearing |
| Working Temperature | -20°C to +70°C |
| Expected Lifespan | 30,000 - 50,000 Hours |
