

# 9.6V Ni-CD/Ni-MH Replacement Battery for Power Tools

This 9.6V replacement battery pack is designed for power tools. It uses Ni-CD/Ni-MH battery technology to provide reliable power.

## Product Overview

### Reliable Power Solution

This 9.6V replacement battery pack is engineered for compatibility with EB9B power tools. Utilizing robust Ni-CD/Ni-MH battery technology, it offers a dependable power source for demanding tasks. The unit features a durable housing and a secure locking mechanism, ensuring straightforward installation and consistent performance.

## Technical Specifications

Voltage	9.6 V
Battery Technology	Ni-CD, Ni-MH
Weight	500 g

## Compatibility & Usage

### Primary Applications

- Power Tools
- Energy storage

Model Number	EB9B
--------------	------

## Logistics

Place of Origin	Guangdong, China
