Overview

Smart & Hygienic Waste Management

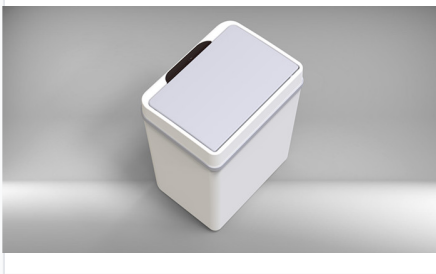

This 9L Automatic Sensor Trash Can provides a touchless and hygienic waste disposal solution for modern B2B environments. Featuring intelligent infrared technology, the lid opens automatically upon motion detection and closes after a 5-second countdown to contain odors. Its compact, durable HIPS plastic construction makes it an ideal choice for offices, bathrooms, and kitchens where cleanliness and convenience are priorities.

Technical Specifications

Capacity	9 L
Dimensions	24 x 18.5 x 30 cm
Net Weight	4.38 kg
Material	HIPS plastic lid and body

Operation & Power

Energy Efficiency	Low Energy Consumption
Sensor Type	Infrared motion sensor
Closing Mechanism	Automatic 5-second countdown
Power Source	2 x AA size batteries (not included)

Design & Maintenance

Key Features

- Automatic open/close lid
- Removable top for easy cleaning
- Integrated bin bag holder
- Touchless hygienic operation
- Space-saving compact design

Logistics & Packaging

20ft Container Capacity

1976 pcs

Units per 20'ft

Standard Packaging

Polybag, Bubble bag, Carton, Color box (Optional)
