

9mm Snap-Off Blade Utility Knife

This is a manual utility knife with a segmented snap-off blade. It features a blade slider and end cap for snapping off blade segments.

Product Overview

Precision Cutting Tool

This 9mm snap-off utility knife is designed for versatile cutting tasks in professional and workshop environments. It features a durable, high-visibility yellow body with an integrated blade slider for precise control over blade exposure. The segmented steel blade ensures a consistently sharp edge, allowing users to easily break off dull sections for continuous, high-performance cutting.
