

9V Super Heavy Duty Battery

This 9V super heavy duty battery provides a reliable power source for various electronic devices. It is ideal for everyday use in devices such as smoke detectors, radios, and remote controls.

Product Overview

Reliable Power for Everyday Devices

This 9V Super Heavy Duty battery is engineered to provide dependable and long-lasting power for a wide range of electronic applications. Designed with environmental safety in mind, it is completely mercury and cadmium free. It serves as an ideal power solution for essential household and professional devices such as smoke detectors, radios, and remote controls.

Technical Specifications

Voltage	9 V
Model Identifier	6F22
Environmental Standards	Mercury Free, Cadmium Free

Usage

Recommended Applications

- Smoke Detectors
- Radios
- Remote Controls
