

9V Zinc Chloride Battery

This 9V zinc chloride battery is environmentally friendly, containing 0% mercury, lead, and cadmium. It has high leakage resistance and provides top performance.

Product Overview

Professional 9V Zinc Chloride Battery

This 9V zinc chloride battery provides a reliable power source for various professional and consumer electronics. Engineered for extra heavy-duty performance, it offers consistent energy output for long-term usage. It is built to the standard 6F22 format, ensuring seamless compatibility across a wide range of compatible devices.

Technical Specifications

Battery Type	Zinc Chloride
Nominal Voltage	9 V
Battery Size/Format	6F22

Performance

Performance Grade

Extra Heavy Duty • Forte Puissance
