

# A-Frame Trailer Hitch Coupler

This A-frame trailer hitch coupler is engineered for secure trailer attachment. Its robust steel build and black finish ensure durability and corrosion resistance.

## Product Overview

### A-Frame Trailer Hitch Coupler

This A-frame trailer hitch coupler is engineered for secure trailer attachment and reliable towing performance. Constructed from robust steel with a durable black finish, it provides excellent corrosion resistance for long-term use in various environments. The design features a positive locking mechanism to ensure safety during transit, making it a dependable choice for a wide range of trailer applications.

## Technical Specifications

Material	Steel
Finish	Black
Safety Features	Positive Locking Mechanism, Corrosion Resistant
Application	A-Frame Trailer
