

A60 LED Light Bulb

This A60 LED bulb is designed for efficient and long-lasting illumination. It features a standard screw base for easy installation in a variety of fixtures.

Product Overview

Efficient A60 Illumination

The A60 LED light bulb is engineered for efficient and long-lasting illumination, making it an ideal choice for general lighting requirements. Featuring a standard screw base, it ensures easy installation across a wide range of fixtures. Its energy-efficient design significantly reduces power consumption compared to traditional incandescent alternatives, while the classic A60 form factor provides versatile compatibility.

Technical Specifications
