

# AA Ni-MH Rechargeable Battery Pack, 8.4V 1400mAh

This is a rechargeable nickel-metal hydride (Ni-MH) battery pack. It has a nominal voltage of 8.4V and a capacity of 1400mAh.

## Overview

### High-Performance Rechargeable Power

This rechargeable nickel-metal hydride (Ni-MH) battery pack is engineered for reliable power delivery in compatible electronic devices. Featuring a nominal voltage of 8.4V and a robust 1400mAh capacity, it utilizes seven AA-sized cells connected in series to ensure consistent performance. The pack comes equipped with an integrated connector, facilitating seamless and secure installation for professional applications.

## Electrical Specifications

Nominal Voltage	8.4 V
Capacity	1400 mAh
Battery Chemistry	Nickel-Metal Hydride (Ni-MH)

## Physical Characteristics

Connection	Integrated Connector
Cell Configuration	7x AA cells in series

## Safety & Compliance

### Safety Warnings

- Do not dispose of in fire
- Handle with care according to standard battery safety protocols
