

# AA R6P Zinc Carbon Battery 1.5V

AA R6P 1.5V zinc carbon batteries are designed for general purpose use. These batteries provide reliable power for various devices and contain 0.00% mercury for environmental safety.

## ADDITIONAL IMAGES

## Overview

### Reliable Low-Drain Power Solution

These AA R6P zinc carbon batteries are engineered for consistent performance in general-purpose, low-drain electronic devices. Featuring a 0.00% mercury and cadmium composition, they offer an environmentally responsible power choice without sacrificing reliability. The design incorporates advanced leakage protection to safeguard your equipment, while providing up to 30% better performance than standard congeneric zinc carbon alternatives.

## Technical Specifications

Battery Type	Zinc Carbon (Dry Battery)
Nominal Voltage	1.5 V
Size Standard	AA / R6P

## Performance Metrics

### Key Performance Metrics

**100 MINS**  
Discharge Time

**3 YEARS**  
Shelf Life

**30 %**  
Performance Boost

## Safety & Compliance

### Certifications

SGS • MSDS • 2006/66/EC • ISO 9001 • CE

### Environmental Features

0.00% Mercury, 0.00% Cadmium, Lead-Free (Pb), Leak-Proof Design

## Physical Construction

Jacket Material

PVC / Aluminium

## Logistics & Packaging

### Packaging Details

- Retail: 2 pieces per blister card
- Carton Size: 51 x 27.5 x 27.5 cm
- Gross Weight: 14 KGS

## Usage Guidelines

### Safety Instructions

- Observe correct polarity (+/-)
- Do not recharge
- Do not expose to high temperatures or fire
- Do not mix old and new batteries
- Do not disassemble or short circuit
