

AA Rechargeable Battery Ni-MH Ni-CD 1.2V 600mAh

AA Ni-MH and Ni-CD rechargeable batteries provide long-lasting power. These batteries are ideal for various electronic devices and offer multiple recharge cycles.

Overview

Reliable Rechargeable Power

These AA rechargeable batteries are engineered to provide a consistent and long-lasting power solution for a wide range of electronic devices. Supporting both Ni-MH and Ni-CD chemistries, they offer versatility and efficiency for professional applications. With a robust design capable of up to 1000 recharge cycles, these batteries represent a cost-effective and environmentally conscious choice for high-usage environments.

Technical Specifications

Capacity

600 mAh

Capacity

Battery Chemistry	Ni-MH, Ni-CD
Nominal Voltage	1.2 V

Performance

Battery Size

AA

Recharge Cycles	1000
