

AA Size Dry Cell Battery

AA size dry cell batteries provide reliable power for various electronic devices. These high-performance batteries feature a 1.5V output, long-lasting performance, and a leak-proof construction.

Product Overview

High-Performance AA Dry Cell Batteries

These AA size dry cell batteries are engineered for reliable 1.5V power delivery across a wide range of electronic devices. Featuring a leak-proof construction and long-lasting performance, they are ideal for high-drain applications such as toys and remote controls. Available in multiple packaging options, these batteries provide a dependable energy solution for professional and household needs.

Technical Specifications

Size

AA • R6

Voltage

1.5 V

Nominal Voltage

Battery Type

Dry Cell

Performance & Safety

Performance

High Performance

Safety Features

Leak-proof Construction, Non-Rechargeable

Applications

Recommended Applications

- Remote Controls
- Playmobile / Toys
- Household Electronics

Logistics & Packaging

Available Packaging

- Shrink Packaging
- Box Packaging
