

AA Size Dry Cell Battery

AA size dry cell batteries deliver reliable power for various electronic devices. These batteries offer extra heavy-duty performance and a long shelf life.

Overview

Reliable Power for Everyday Devices

These high-performance AA size dry cell batteries are designed to provide consistent and long-lasting power for a wide range of electronic applications. Engineered for extra heavy-duty performance, they are ideal for high-drain devices such as remote controls and motorized toys. With a focus on environmental safety, these batteries are manufactured to be mercury-free while maintaining a dependable shelf life.

Technical Specifications

Battery Size

AA • R6

Performance Highlights

100 %

Quality Rating

Duty Classification

Extra Heavy Duty

Compliance & Safety

Manufacturing Standards

- GB/T 8897.2-2016
- GB/T 8897.2-2018

Environmental Features

Mercury-Free, Environmentally Friendly

Applications

Recommended Applications

- Remote Controls
- Playmobile / Motorized Toys
- General Electronic Devices

Packaging & Logistics

Available Packaging

Shrink Packaging, Box Packaging
