Overview

High-Performance AAA Alkaline Power

These LR03 alkaline batteries are engineered to provide long-lasting power for high-current discharge applications. Featuring advanced anti-leakage and anti-explosion technology, they offer reliable performance while maintaining an eco-friendly profile. They are ideal for professional and everyday use across a wide range of electronic devices.

Technical Specifications

Nominal Voltage

1.5 V
Voltage

Battery Size

AAA / LR03

Model Number

737

Key Features

Safety & Protection

Anti-Leakage • Anti-Explosion • Long-Lasting

Eco-Friendly Composition

0% Mercury (Hg), 0% Cadmium (Cd), 0% Lead (Pb)

Applications

Recommended Applications

- Personal Care: Shavers, Electric Brushes
- Smart Home: Door Locks, Fire-Alarm Systems
- Computing: Wireless Mouse, Headphones
- Illumination: Torches, Camping Lights
- Toys & Entertainment: Electric Toys, Camera Flash
- Medical: Forehead Thermometers
- Tools: Multimeters

Safety & Handling

Safety Guidelines

To prevent potential explosion or leaking, do not recharge these batteries. Do not dispose of in fire or disassemble the battery casing.
