

# AAA Carbon-Zinc Batteries

AAA carbon-zinc batteries deliver reliable power for everyday electronic devices. These batteries are mercury-free, ensuring environmental safety.

## Product Overview

### Reliable Power Solutions

These AAA carbon-zinc batteries offer a consistent and dependable power source suitable for a wide range of everyday electronic devices. Engineered for safety, the mercury-free composition ensures environmentally conscious operation in household settings. They are an ideal choice for low-drain electronics like remote controls, toys, and portable household devices.

## Technical Specifications

Battery Type	AAA / R03C
Composition	Carbon-Zinc, Mercury-Free

## Logistics & Packaging

### Packaging Configurations

Format	Unit Count
Sales Package (Shrink)	4
Small Package (Box)	24
Bulk Carton	2400

### Weight Specifications

<b>16.5 kg</b> Net Weight	<b>17.5 kg</b> Gross Weight
------------------------------	--------------------------------

Carton Dimensions	36 x 19 x 18 cm
