

# AAA Carbon Zinc Battery

This is an AAA carbon zinc battery. It has a voltage of 1.5V.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Power Solution

This AAA carbon zinc battery is designed for consistent, reliable performance in everyday electronic devices. Engineered as an extra heavy-duty power source, it provides a stable 1.5V output suitable for a wide range of consumer electronics. With a focus on environmental safety, this battery is manufactured to be completely free of mercury and cadmium.

## Technical Specifications

Battery Size	AAA (R03P / UM-4)
Nominal Voltage	1.5 V
Chemical Composition	Carbon Zinc

## Compliance & Standards

Certifications	ISO 9001:2015, Mercury Free, Cadmium Free
Patent Number	ZL 200530106334.9

## Packaging & Logistics

Standard Packaging	4pcs/shrink
