

AAA Carbon-Zinc Battery

AAA carbon-zinc battery for a variety of electronic devices. It is mercury-free for environmental safety.

Product Overview

High-Performance Carbon-Zinc Power

These AAA carbon-zinc batteries are engineered for consistent reliability in a wide variety of everyday electronic devices. Featuring a robust steel casing and a mercury-free composition, they prioritize both environmental responsibility and user safety. Ideal for heavy-duty applications, they offer a dependable power solution for professional and consumer needs.

Technical Specifications

Battery Size	AAA
Chemistry	Carbon-Zinc
Construction	Steel Shell

Safety & Certification

Environmental Features	Mercury-free, Non-rechargeable
------------------------	--------------------------------

Usage Guidelines

Safety Warnings

- Do not recharge
- Do not open battery
