

# AAA R03 Carbon Zinc Battery

This is an AAA R03 battery with a PVC jacket. It is a carbon zinc battery.

## ADDITIONAL IMAGES

## Product Overview

### AAA R03 Carbon-Zinc Battery Solution

This AAA carbon-zinc battery is designed for reliable, everyday performance. Featuring a stable 1.5V output, it is engineered with a focus on environmental safety by remaining completely free of mercury and cadmium. The leak-proof construction ensures your electronic devices are protected from potential damage, making it a dependable choice for various low-drain applications.

## Technical Specifications

### Nominal Voltage

**1.5 V**  
Voltage

Chemical System	Carbon-zinc (Zn-MnO <sub>2</sub> )
Battery Size	AAA / R03P / SUM-4
Shelf Life	3 years

## Compliance and Standards

Certifications & Standards	IEC Standard, ROHS, EU Battery Directive 2006/66/EC
----------------------------	---

## Quality and Safety

### Safety Features

- Mercury-free
- Cadmium-free
- Leak-proof construction
- Deformation resistant
