

AAA Zinc Chloride Battery

AAA battery with carbon-zinc chemistry. It is suitable for low-drain devices.

Overview

AAA Zinc Chloride Power Solution

This AAA Zinc Chloride battery is an extra heavy-duty power source designed for consistent performance in low-drain electronic devices. Engineered for reliability, it serves as a cost-effective solution for everyday consumer electronics. The battery is provided in robust packaging options, making it ideal for both retail and bulk distribution requirements.

Technical Specifications

| | |
|-----------------|-----------------------------|
| Battery Type | Zinc Chloride (Carbon-Zinc) |
| Size Format | AAA / R03P |
| Mercury Content | No |

Packaging and Logistics

Available Packaging

- PVC Shrink Wrap
- Small Box (24 units)
- Bulk Carton (2400 units)
