

Abrasive and Grinding Material Assortment

This assortment includes discs, sheets, and pads for grinding. The materials are suitable for grinding, polishing, and surface preparation in both industrial and DIY settings.

Product Overview

Comprehensive Abrasive Assortment

This versatile assortment of abrasive and grinding materials is engineered for diverse surface preparation, grinding, and polishing tasks. The collection features a wide variety of discs, sheets, and pads, providing the flexibility needed for both industrial applications and detailed projects. With multiple grit levels and configurations available, users can easily transition from aggressive stock removal to fine, precision finishing on various surfaces.
