

Abrasive and Grinding Wheel Set

This set features abrasive and grinding wheels for material removal and finishing. Wheels with different abrasive materials and grit sizes accommodate tasks from coarse grinding to fine polishing.

Product Overview

Professional Abrasive and Grinding Solution

This comprehensive set of abrasive and grinding wheels is engineered for versatile material removal and precision finishing. Designed to handle tasks ranging from coarse grinding to fine polishing, these wheels are compatible with various rotary tools and grinders. Built with durable abrasive grains on a sturdy backing, they ensure consistent performance and wear resistance across metalworking and woodworking applications.

Technical Specifications

Tool Compatibility

- Rotary Tools
- Grinders

Suitable Applications

Metalworking, Woodworking, Material Processing, Surface Preparation, Material Removal

Performance Features

Construction

Durable Abrasive Grains • Wear Resistant • Sturdy Backing
