Product Overview

Professional Abrasive Cutting Disc

This high-performance abrasive cutting disc is engineered for precision and durability in demanding industrial environments. Designed for compatibility with standard angle grinders, it delivers clean, efficient cuts across a variety of materials including metal, stainless steel, plastic, and wood. Built to rigorous safety and performance standards, this tool is an essential asset for professional workshops and manufacturing applications.

Technical Specifications

Dimensions	115 x 1.0 x 22.2 mm
Max Operating Speed	80 m/s
Maximum RPM	13300 RPM

Compatibility

Compatible Materials	Metal, Stainless Steel, Plastic, Wood
----------------------	---------------------------------------

Safety

Required Protective Equipment

- Dust protection
- Eye protection
- Ear protection

Usage Warning	Wear dust, eye, and ear protection at all times during operation.
