Product Overview

Professional Abrasive Cutting Wheel

This abrasive cutting wheel is engineered for high-performance cutting on a variety of materials, including metal and stone. Designed for use with standard angle grinders and rotary cutting tools, it features a reinforced center for enhanced durability and stability during operation. Its textured surface ensures efficient material removal, making it an ideal choice for construction, metalworking, and general fabrication tasks.

Technical Specifications

Primary Applications

- Metalworking
- Construction
- General Fabrication
- DIY Projects

Suitable Materials

Metal • Stone

Tool Compatibility

Angle Grinder, Rotary Cutting Tools

Design Features

Design Highlights

- Reinforced center for durability
- Textured surface for efficient removal
- Standard arbor size
