

Abrasive Cutting Wheel for Angle Grinders and Cut-Off Saws

Abrasive cutting wheel designed for use with angle grinders and cut-off saws. Constructed with high-quality abrasive grains and reinforced with durable bonding materials for efficient and precise cutting of metal, stone, and concrete.

Product Overview

High-Performance Cutting Solutions

This abrasive cutting wheel is engineered for reliability and precision in demanding industrial and construction environments. Designed for compatibility with both angle grinders and cut-off saws, it features a reinforced construction using high-quality abrasive grains and durable bonding materials. Its specialized formulation ensures clean, efficient cuts across a variety of hard materials including metal, stone, and concrete.

Compatibility & Application

Suitable Materials

- Metal
- Stone
- Concrete
- INOX

Compatible Tools

Angle Grinders, Cut-Off Saws

Technical Specifications

Purity Standards

Iron Free • Chlorine Free • Sulphur Free

Impurity Content

0.1 %

Max Iron Content

Construction Technology

Superfiber reinforced bonding
