

Abrasive Cutting Wheel for Angle Grinders

Abrasive cutting wheel designed for use with angle grinders. It features a durable construction and is suitable for cutting metal.

Product Overview

High-Performance Abrasive Cutting Wheel

This abrasive cutting wheel is engineered for precision and durability when used with standard angle grinders. Designed specifically for metal cutting applications, it features a reinforced construction to ensure safety and stability during high-speed operations. The wheel is fully compliant with international safety standards, making it a reliable choice for professional industrial use.

Technical Specifications

Dimensions

125 mm
Diameter

1.2 mm
Thickness

22.23 mm
Bore Size

Imperial Measurements

5" x 3/64" x 7/8"

Performance & Safety

Maximum Operating Speed

80 m/s

Safety Compliance

EN12413, MPA Z-14156

Material & Construction

Abrasive Specification

A36R-BF

Key Features

- Extra reinforced construction
- Suitable for metal cutting
- High-speed operation compatibility
- Durable abrasive bonding

Application

Compatible Equipment

Angle Grinders
