

Abrasive Cutting Wheel for Electric Tools

This cutting wheel is designed for use with electric tools. It is constructed from bonded abrasive grains, which makes it suitable for cutting metal and other hard materials.

Product Overview

Professional Abrasive Cutting Solution

This abrasive cutting wheel is engineered for high-performance cutting tasks on metal and other hard materials. Constructed with durable abrasive grains bonded for longevity and efficiency, it is designed to withstand the rigors of high-speed electric tool operation. Ideal for industrial and workshop applications requiring clean, precise cuts.

Technical Specifications

Maximum Operating Speed

72 m/s

Max Speed

Abrasive Grade	A36
Bond Type	P8BF

Usage

Compatible Materials	Metal, Hard Materials
Tool Compatibility	Electric Power Tools
