Product Overview

Professional Abrasive Cutting Solution

This high-performance abrasive cutting wheel is specifically engineered for precision cutting of stainless steel materials. Designed with safety and efficiency in mind, it meets rigorous international quality standards to ensure reliable performance in demanding industrial applications. The wheel features a specialized abrasive composition that provides clean cuts while maintaining structural integrity.

Technical Specifications

Available Sizes

Order Number	Dimensions (mm)	Max RPM
XRL-41WA1151.2	115 x 1.2 x 22.23	13300
XRL-41WA1251.2	125 x 1.2 x 22.23	12200

Specification Code	T41-WA60P5BF
