

Abrasive Flap Disc - 4 inch, T27 Standard

This abrasive flap disc is designed for grinding, blending, and finishing on various materials. It features a 100x16mm (4"x5/8") size and conforms to EN 13743 standards.

Overview

Professional Abrasive Solution

This T27 angled flap disc is a versatile abrasive tool engineered for efficient grinding, blending, and finishing operations. Designed for professional use, it delivers consistent performance on steel surfaces. The disc is manufactured to comply with international safety standards, ensuring reliability in demanding industrial environments.

Technical Specifications

Maximum Speed

15200 RPM
Max RPM

80 M/S
Max Velocity

Grit Options

- 60#
- 80#

Diameter 100 mm

Arbor Size 16 mm

Compliance & Material

Compliance Standards

EN 13743

Abrasive Material Aluminium oxide

Disc Shape T27 (Angled)
