

Abrasive Sanding Paper for Wood Metal Plastic

Abrasive paper designed for sanding and finishing applications. It has a durable backing material and evenly distributed abrasive grit for consistent performance on wood, metal, plastic and painted surfaces.

Product Overview

Professional Abrasive Sanding Paper

This high-performance abrasive sanding paper is engineered for versatility across a wide range of materials, including wood, metal, plastic, and painted surfaces. Featuring a durable backing and premium silicon carbide abrasive, it ensures consistent material removal and a uniform finish. Designed for professional sanding and finishing applications, this paper offers long-lasting durability for demanding project requirements.
